

# 2022 OSCIA *Resolutions & Responses*

**Grassroots Innovation**  
*Since 1939*

## **Resolution #1 – Oxford SCIA – Credit Card Payments**

- WHEREAS** Many OSCIA members and most industry supporters are wishing to pay membership and sponsorship fees via credit card, and;
- WHEREAS** Currently, the only method OSCIA members have to renew memberships by credit card is online through by logging into the membership platform, and;
- WHEREAS** There is no simple way to invoice and accept credit card payments from industry supporters for sponsorship of local and regional events to enable them to pay via credit card through the membership platform, and;
- WHEREAS** It would be very time consuming and logistically impeding during an in-person event to have members and industry supporters log in to the membership platform to complete a credit card payment.

**THEREFORE, BE IT RESOLVED** that the OSCIA acquire 11 point-of-sale card readers, one for each region, in order to accept and accommodate in-person, over-the phone and more easily accessible online credit card payments

**MOVED BY:** Warren Schneckenburger

**SECONDED BY:** Greg Wilson (Oxford SCIA)  
**CARRIED**

**SEND TO:** OSCIA IT department, along with Website committee to investigate if there are any security issues and how they would utilize and maintain these devices.

### **PROGRESS TO-DATE:**

*G. Perry, IT Manager has been investigating options and presented a summary to Executive committee on March 23, 2022. Action item from presentation was to connect with one local SCIA and run a trial on the use of this technology for membership and event payments and report back to the Executive.*
